

International Webinar on

Neuroscience and Neurology

June 01-02, 2023 | GMT+4

WELCOME TO SCIENTEX CONFERENCES

Achieving Greatness Through Our Greatest Events!

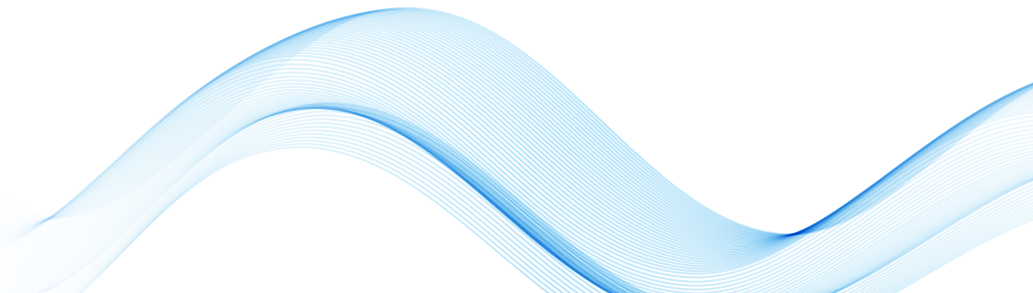

Scientex conferences hosts a plethora of conferences in various fields but not limited to Medicine, Pharma, Health Science, Life Science, Engineering and Technology. All our events are organized with utmost care and diligence in providing the greatest of facilities and infrastructure that one could possibly provide for the smooth and successful transmission of knowledge transfer that takes place between the attendees of our conference for mutual beneficiary purposes that would eventually push to attain the prosperity of solving the modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by providing excellent opportunities for professionals to explore the realms of the scientific research community to create and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, students and other such people to exchange their ideas and provide solutions for major global challenges in the vast arena of the scientific society as a whole.

Our conferences are highly successful with high quality interactive technical sessions with recent research findings of the latest and futuristic trends exposed as we focus on providing workshops and symposiums organized through well-established industrial and academic tie-ups with various professional bodies, organizations and top-rated universities around the world in the fields of science technology and medicine. We bring in eminent speakers with world class expertise from various countries of the world to enlighten our researchers to spark the enthusiasm of research through our best conferences which provide a platform for effective collaborations on latest research for the worldwide community. We manage a wide range of top rated conferences with exceptional keynote speeches, interactive sessions, lively debates on research and development in the fields of Medicine, Engineering and Technology exposing revolutionary concepts, ideas, practices and projects through realms of scholarly articles discussed by scholars at a global stage to provide clarity of modern age science. Our conferences exhibit innovative, cutting-edge research in tackling the challenges pertaining in the translation of research from academia level to industry.

Mission, Vision, Key to Success

We understand the need for quality forums for like-minded researchers with similar fields of interest to find solutions to their unsolved mysteries of science and international challenges faced by the scientific community to make this world a better place to live in. Our conferences aim to provide you with an opportunity to share scientific resources, exchange scientist research experiences and innovate in studying for all the scholars of the world and be an innovative leader of the future. The opportunities we provide are focused on enhancing the professional growth of our conference participants that would attribute significantly to their research works.

Day 02: June 02, 2023 | Friday

Introduction: 09:45 - 10:00

SPEAKER PRESENTATIONS

10:00 - 10:20	<p>Title: Non traumatic chronic subdural hematoma with Myelodysplastic Syndrome</p> <p>Muhammad Irfan, Nisthar Hospital, Pakistan</p>
10:20 - 10:40	<p>Title: Pediatric brainstem glioma of a Tertiary Care Hospital: Clinical profile and challenges of management in a developing country</p> <p>Ashis Kumar Ghosh, National Institute of Cancer Research and Hospital, Bangladesh</p>
10:40 - 11:00	<p>Title: Graph theory for better comprehension of Alzheimer's Disease</p> <p>Yegnanarayanan Venkataraman, Kalasalingam Academy of Research and Education, India</p>
11:00 - 11:20	<p>Title: Restless Legs Syndrome in hemodialysis patients</p> <p>Hina Iram, Jinnah Postgraduate Medical Centre Karachi, Pakistan</p>
11:20 - 11:40	<p>Title: Creativity in decision making</p> <p>Silvio Manuel Brito, Polytechnic Institute of Tomar, Portugal Joao P C Fernandes Thomaz, ISLA- Santarem, Portugal</p>

KEYNOTE PRESENTATIONS

11:40 - 12:20	<p>Title: How is it like, suddenly to find yourself under Russia bomb-attacks? Monstrous consequences for peaceful Ukrainians' psyche</p> <p>Andreyanna Ivanchenko, Kharkiv Institute "Interregional Academy of Personnel Management", Ukraine</p>
12:20 - 13:00	<p>Title: Traumatic spinal cord injuries: Influence of management on predictable spontaneous neurological recovery</p> <p>Wagih El Masri, Keele University, UK</p>

Break 13:00 – 14:00

SPEAKER PRESENTATIONS

14:00 - 14:20	<p>Title: Moringa oleifera oil mitigates neurobehavioural deficits and cellular alterations in the prefrontal cortex of rats exposed to permethrin</p> <p>Jesse Sylvester, University of Ilorin, Nigeria</p>
14:20 - 14:40	<p>Title: Effectiveness of microelectrode recording in targeting the STN accurately with high-frequency DBS in Parkinson's disease</p> <p>Venkateshwarla Rama Raju, CMR College of Engineering & Technology; Nizam's Institute of Medical Sciences (NIMS) Hospital, India</p>

How is it like, suddenly to find yourself under Russia bomb-attacks? Monstrous consequences for peaceful Ukrainians' psyche

ABSTRACT

Monstrosity of Russia-attacking on Ukraine became a hot topic for global scientific community. Majority of articles devoted to Ukrainian war-situation are commentaries, demonstrative-reviewal information, narrations, written in a descriptive-expository-elucidative form. There are only single scientific mathematical-statistical results, but no analysis of person's mental/psycho-emotional state.

For the first time, the psychic/psycho-emotional state of civilians, remained in Kharkiv shelled by aggressor-Russia (furthermore, from the first war days), was studied. Visual psychodiagnostics methods – observation, conversation was used: watching; scrutinization; surveillance- overseeing; reviewing while going the battle-events (the only possible ones during constant missile strikes/explosions around). Study participants (n=585) stayed in Kharkiv during all period of active rocket/bomb attacks. There were determined and characterized time-stages of participants' states, partially similar to those when people learn about the diagnosis of cancer/radiation/IDS diseases: 1) Shocking non-understanding, fear-anxiety-unbelief (1st-2d weeks); 2) sadness-loneliness-waiting (3d-4th); 3) indifference-adaptability-hope (5th); 4) unconcern-carelessness-heedlessness dangerous for life, for many unwavering faith in victory, its expectation (6th and on). For Kharkivits (all Ukrainians, too), it is impossible to realize-accept that the war is going on: The state of unbelief-unacceptance-nonunderstanding this fact rests, remains deep subconsciously. Remaining alive, a person has a need to imitate the former normal life – thus, automatically protective-defensing body mechanism is triggered. Such psychic states' manifestations were identified, traced their evolution: nervousness (with increasing participants' age, the quantity who felt it decreased – from 75% to 30%), constant emotional stress (slightly increased with age – 60%-75%), sharp change in mood (significantly decreased with age – 90%-12%). Children appeared the most vulnerable and susceptible to all psychic/psycho-emotional states: 90%-55% compared to 75%-12% of adults. These states are dangerous because they may initiate pathological neurologo-somatic disorders in the body.

With the aim of prevention-rehabilitation, the participants were offered self-healing techniques (Reiki, meditation, sports exercises) which helped to divert attention, partially stabilizing the psycho-physiological state.

BIOGRAPHY

- Doctor of Psychological Sciences (Ph.D. in General Psychology was received in 1985; the defense of the second dissertation for receiving the title of Doctor of Sciences in Psychology – in 2017).
- Full Professor at the Department of Psychology, Kharkiv Institute "Interregional Academy of Personnel Management" (Kharkiv, Ukraine); address: 3 Beketova st., Kharkiv, 61007, Ukraine.
- Member of international editorial board of the Canadian multidisciplinary scientific Journal «Fundamental and Applied Researches in Practice of Leading Scientific Schools» (ISSN 2708-0994):
- Member of international editorial board of Brazilian scientific Journal of the State University of Rio de Janeiro (Brazil) «Revista Italiano UERJ» (ISSN 2236-4064); Journal publishes articles in all humanitarian / education areas.

- Professor of Psychology and of Foreign Languages (Italian, English and Russian as a foreign language);
- Lecturer of Russian as a foreign language during 1986-1988 years at the Venice Ca' Foscari University, Italy, on the basis of the cultural exchange within the framework between the ministries of Italy and USSR (in accordance with a provision 24 of the Law 62/87);
- Qualification improvement (as philologist-Italianist) during the 1998-1999 years, executed at the Venice Ca' Foscari University in Italy, on the basis of studying scholarship obtained (the bursar was offered by the Italian Ministry of Foreign Affairs of Italian Government, received at the Italian Embassy in Ukraine);
- Reiki Master/Teacher of theoretic bases and practical techniques according to Ancient Eastern psychological-philosophical tradition "Usui Reiki Ryoho" aimed to reaching the natural-ollistic self-healing of the body (Teacher of the First, Second and Third levels, the studying course was fulfilled in 2002-2004 in Venice, Italy, taught by two Reiki Master/Teachers – Italian and Japanese);
- Publications. Since 1984 there are more than 130 different publications (mainly scientific articles), including 4 monographs, 27 abstracts of reports at conferences and 13 training aids. Publications' sites (scientific research and work in the field of educational and professional activities): Scopus Author ID: 57216510903
- Coordinator of the collaboration (2003-2017) between the University of Padua, Italy, and V.N. Karazin Kharkov National University within the framework of the Agreement on Cooperation of these universities;

Education and Research work:

- 1974 - Diploma (School of Foreign Languages of Kharkiv State University, Kharkiv);
- 1984 - Diploma (School of Philology of Kharkiv State University, Kharkiv); 1986 - Diploma (Ph.D. in General Psychology);
- 1991 - Diploma (School of Foreign Languages in a part-time program, Moscow; 4-year course of training completed externally in one academic year of 1990-1991);
- 1993 - Diploma of Associate Professor (issued by the Higher Attestation Commission awarding the academic degree of Associate Professor at the Department of Foreign Language Teaching Methods and Russian Linguistics);
- 1986-1988 - Work at a university in Venice (Italy) through the line of international contacts of the USSR and Italy;
- 1998-1999 - Personal scholarship from the government of Italy for improving command of Italian and acquiring culturalogical knowledge on Italy, its history, society and people (scholarship awarded by the Embassy of Italy in Ukraine);
- 1978-2017 - Professor of the V.N. Karazin National University of Kharkov (Faculty for Foreign Students, 1978-1998, and then Faculty of Foreign Languages, 2000-2017);
- October 2017 - Diploma of Doctor of Psychological Sciences;
- Since 2017 - Full Professor, Department of Psychology, Kharkiv Institute "Interregional Academy of Personnel Management".

Research Interest:

- Psychology of creativity as a vital dynamic purpose, person's creative life-orientation;
- Students'/youth's and general population self-development;
- Psychology of interpersonal relations;
- Alexithymia psychological foundation;
- Extreme and crisis psychology;
- Psycho-emotional trauma during stress/extreme period; stress-resistance and person's internal defense mechanism;
- Psycho-bioenergy, ancient oriental arts/techniques of body self-healing;
- Reiki as psychological-philosophical technique of mind-body restabilization;
- Psychosomatics; psycholinguistics.
